Portfolio

FRONTEND DEVELOPER

Dynamic and experienced Frontend Developer, specialized in TypeScript, React, React Native, Next.js, SEO, and tracking implementations. Skilled in taking projects from inception to completion, expertly managing architecture and technology stacks. Proven track record of delivering high-quality web and mobile applications, optimizing for performance and user experience. Adept at managing SEO strategies, integrating complex payment systems and third party ecommerce APIs.

PROFESSIONAL EXPERIENCE

IDT S.p.A.   **Nov 2021 - Present**
Frontend developer

- Frontend development using TypeScript, JavaScript, React and Next.js for fashion dropshipping and B2B e-commerce sites.
- Developed a solution for customer tracking in physical stores.
- Managed tracking systems (GTM, Google Ads, Analytics, Meta for business, Google Merchant) and SEO.
- Developed Shopify applications and an AI customer care chatbot with integrations for multiple ecommerce platforms.
- Led a front-end development team of 3 in-house developers and 2 external contractors.

Blue Reply IT   **Giu 2020 - Nov 2021**
React Native Developer

- Developed a mobile banking app using Typesctipt and React Native.
- Implemented RSA-based login, with native integrations in Objective-C for iOS and Java for Android.

Getapper   **Feb 2019 - Nov 2021**
Frontend developer

- Developed web and mobile applications using Javscript, React and React Native.
- Provided consultancy services to other consulting firms, leveraging expertise in frontend development.

Ubiatar Inc   **Sep 2017 - Feb 2019**
Fullstack developer

- Developed an audio/video streaming platform using JavaScript, React and backend systems using Node.js with Hapi.js framework.
- Wrote smart contracts in Ethereum using Solidity.

PROJECTS

BDroppy
- Developed the frontend using Typescript, JavaScript, React and Next.js for a B2B e-commerce site.
- Integrated payment services and managed tracking systems and SEO.
- Integrated Site builders (Woocommerce, Shopify, Wix, Ecwis, Squarespace)
- Led the migration of BDroppy from React 14 to Next.js with React 17 and later from JavaScript to TypeScript for improved maintainability.

CustomerTrack
- Developed a white-label software solution for customer tracking in physical stores, with the ability to customize and integrate the system into various commercial environments.
- Built a React Native app for Windows as a dashboard to monitor tracking data and interact with analytics systems.

VisualBoost
- Developed the frontend of the Visual Boost website, delivering a responsive and high-performance user experience.
- Built the internal dashboard interface for managing image creation, editing, and delivery workflows.

Aidify
- Developing an AI chatbot for e-commerce capable of interfacing with major e-commerce platforms.
- Built using Supabase, GraphQL, Langchain and a frontend with TypeScript, Next.js and NextUI and tested with Cypress

App mobile Findomestic (Consultancy for Blue Reply IT)
- Developed a mobile banking app using TypeScript and React Native for a major Italian bank.
- Integrated key security systems and banking services.

Paratissima ArtGallery - WelfareInforma - Competenze e Lavoro
- Developed frontends for various websites using React.
- Provided bespoke solutions tailored to the specific needs of each client.
